

DANIEL J. BISHOP
Founder, President and CEO
THE MAIDS INTERNATIONAL, INC.

■ “I’ve found that high standards are part of the culture at Koley Jessen. That doesn’t happen by accident—it starts at the top and goes all the way down. They’re the most professional, most skilled attorneys I know.”

Dan Bishop knows the value in planning for success. When he started The Maids in 1979, his Omaha-grown residential deep cleaning service was a small business. But this entrepreneur had big plans. And in Koley Jessen he found the right legal partner to help his company reach some significant milestones over the past fifteen years.

Today, The Maids is an international success, with 164 franchise partners serving 90 major cities in the United States and Canada. Koley Jessen has been there along the way, providing the company with results-oriented expertise in a variety of areas—from general corporate matters and acquisitions to employment law and real estate. Our depth and breadth of knowledge and willingness to listen has provided Dan Bishop with a relationship he says is like a favorite uncle: a source for sound advice and reliable counsel.
